JOINT INTEREST LIST OF TECHNICAL MANUALS

INTRODUCTION

This is a list of Technical Manuals that have common Service application. The Manuals are identified as: (a) Jointly used by two or more DOD Components and each Component has assigned its own Technical Manual number or, (b) Wherein one Component is providing direct Automatic Distribution support to one or more of the other DOD Components.

The information contained herein is arranged in alphanumeric sequence by Part/Model Number, CAGE , Nomenclature, PublicationData and Cognizant activity. It is intended to aid the user in the identification of related publications on aircraft components and equipment.

An asterisk (*) preceding a Technical Manual number denotes the prime number and indicates the DOD Component that has responsibility for issuing the manual.

This listing is in one section showing Naval Air Systems Command and Air Force Technical Manuals only. No other services furnished updates for this edition.
